

StreetMaster M

LED Street/Area Luminaire

Product Description

The StreetMaster Series is designed following principles of unparalleled energy efficiency, environmental sustainability, innovative modular design, extended service life and rapid installation. This series represents the optimal lighting solution for any context, offering a modular system that includes two product sizes, a wide range of optics, options for dimming autonomous luminous flux and Zhaga connectivity.

The innovative adjustable joint allows mounting on 60mm outer diameter poles or stands, with an adjustability of 5° increments. Tilt adjustment is easy, made from the outside without the need to open the cover. Due to its high efficacy, the StreetMaster Series is designed to replace even first-generation LED lighting fixtures, ensuring a quick return on investment.

The design also reflects the 'less is more' philosophy, emphasizing simplicity and effectiveness.

Applications: Urban and suburban roads, walkways, and parking lots.

Performance Summary

Efficacy: up to 175lm/W

Initial Color Consistency: 4 Step SDCM

System Lumen Output: Up to 16700 lm

Limited Warranty: 5 years on luminaire*

*Extended warranty (up to 10 years) available on approved projects. Contact ADLT for further information.

StreetMaster M

LED Street/Area Luminaire

Light engine	System Lumen Output (lm)	Power (W)	Efficacy (lm/W)
D	11000	65.3	168
	12000	72.3	166
	12700	77.7	164
E	13000	76.6	170
	14000	83.3	168
	15000	90.1	166
	16000	97.1	165
	16700	102.1	163

Note¹: Data above for 4000K CRI70. Conversion factor for 3000K CRI70 = 0.95

Note²: lux and power data are typical values at 25°C ambient temperature. These values are subject to a tolerance of ± 7%. In order to facilitate product updates, Cree Lighting Europe reserves the right to make changes without prior notice

Virtual Midnight

This independent stand-alone system requires no additional wiring; it is integrated into the luminaire and requires no intervention from the installer. A system that is reliable and easy to set, as the adjustment follows pre-defined steps. Virtual Midnight offers excellent results in terms of savings: the device updates automatically according to the system's switch-on and switch-off times. Most energy saving regulations - GPP and the like - require maximum light output during the first and last hours of operation, which are generally the busiest, and a reduction of at least 30% during the central hours of the night. Through a self-learning process, the microprocessor determines the central point - the so-called virtual midnight - between the time the system is switched on (sunset) and the time it is switched off (dawn). The process is carried out over three consecutive days with regular on/off cycles. Virtual midnight is the reference point for switching the setback intervals according to the desired profile.

FEATURES

- Available with **NanoComfort**[®] precision optical system
- System lumen output up to 16700lm
- Zhaga Book 15 compliant LED module efficiency (excluding optical system): ≥ 220 lm/W
- Luminaire efficiency (including optical losses): up to 175 lm/W
- CCT: 4000K Ra70, 3000K Ra70
- CRI Standard min. 70
- Initial Chromatic Selection: ≤ 4 -Step MacAdam ellipse or $\Delta u'v' < 0.003$ (LM80:08)
- Luminous flux maintenance factor: L90B10 $> 100,000$ hours $T_a=25^\circ\text{C}$
- Optical compartment and wiring compartment ingress protection: IP66 (IEC 60529)
- Optical compartment and wiring compartment impact resistance: IK10 (EN 62262)
- Overvoltage protection: up to 10kV CM/DM according to EN 61000-4-5 and EN 61547
- Driver equipped with over-temperature protection for optimal performance and safety
- Power factor: up to 0.98 at full load
- Operating temperature: -40°C up to $+50^\circ\text{C}$
- Control options: Virtual Midnight, D4i
- Available with fuse and 20mm Zhaga Book 18 connector
- Backlight control accessory available on request for selected lenses
- SPD with LED fault indicator (Standard in class 1, available on request in Class 2)
- Weight: 4 kg
- Lateral windage area: 0.03 m^2 , maximum windage area: 0.09 m^2

CONSTRUCTION AND MATERIALS

- Die-cast aluminum body with low copper content
- Power supply compartment accessible without the use of tools
- Ultra-clear 4mm tempered glass with anti-reflective coating
- Replaceable PMMA lenses
- Replaceable LED board equipped with ESD protection
- Cable type H05RN-F (Cable length up to 12m)
- Easy installation: wiring compartment accessible without tools, no need to open it for installation if the fixture is configured with protruding cable
- Convenience in routine and extraordinary maintenance: accessible power supply compartment; lenses and LEDs easily removable and replaceable using a single tool
- Luminaire assembled without the use of adhesives, fully demountable and recyclable
- Fixed mounting on 42/60/76mm diameter vertical poles or stands and adjustable mounting in 5° increments (from 0° to -15°) on 42/60mm horizontal tenons

WARRANTY AND CERTIFICATIONS

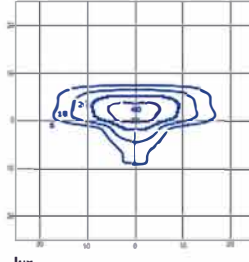

- Warranty: 5 years / 10 years on request*
- CE / CB / RoHS / ENEC pending
- Compliant to: EN 60598-1, EN 60598-2-3
- Meets CAM requirements
- Exempt risk class (EN 62471)
- Compliant with vibration test in accordance with IEC 60068-2-6 severity levels
- Lead-free powder coatings with excellent exterior durability, conforms to the requirements:
 - Adhesion - test compliant with ISO 2409
 - Salt spray - test NSS compliant with ISO 9227
 - Accelerated Weathering - test UV compliant with ISO 16474-2 (ex ISO 11507)
 - Constant humidity - test compliant with ISO 6270-1

*Extended warranty (up to 10 years) available on approved projects. Contact ADLT for further information.

Photometry

All published luminaire photometric testing performed by an external certified ISO 17025 laboratory.
